

Rethink Tomorrow

novozymes 

BG Max™ X

Xylanase, Liquid

BG Max™ X is an efficient xylanase for substrates containing high xylan contents. It has an excellent pH profile for common biogas processes with high enzyme activity in high alkaline environments

Why consider Enzymes for Biogas production?

Increased biogas production

Lower viscosity

Higher flexibility in choice of substrate

SPECIFICATIONS

Key application parameters

Application range

COMMON SUBSTRATES

-  Corn and whole-plant grain silage
-  Manure inclusion
-  Mixed food waste

FORMULATION

Blends well with other **enzymes** and/or process additives.

About Novozymes

Novozymes is the world leader in biological solutions. Together with customers, partners and the global community, we improve industrial performance while preserving the planet's resources and helping to build better lives. As the world's largest provider of enzyme and microbial technologies, our bioinnovation enables higher agricultural yields, low-temperature washing, energy-efficient production, renewable fuel and many other benefits that we rely on today and in the future. We call it Rethink Tomorrow.
