

Rethink Tomorrow

novozymes 

BG Max™ AG

Amylase and Gluco-amylase, Liquid

BG Max™ AG is a blend of amylases and gluco-amylases which are particularly effective at degrading raw starch-based substrate without thermal treatments.

Why consider **Enzymes** for Biogas production?

Increased biogas production

Lower viscosity

Higher flexibility in choice of substrate

SPECIFICATIONS

Key application parameters

Application range

COMMON SUBSTRATES

-  Whole-plant grain silage
-  Sugar beet and cassava pulp
-  Mixed food waste

FORMULATION

Blends well with other **enzymes** and/or process additives.

About Novozymes

Novozymes is the world leader in biological solutions. Together with customers, partners and the global community, we improve industrial performance while preserving the planet's resources and helping to build better lives. As the world's largest provider of enzyme and microbial technologies, our bioinnovation enables higher agricultural yields, low-temperature washing, energy-efficient production, renewable fuel and many other benefits that we rely on today and in the future. We call it Rethink Tomorrow.
